

# WATER WORKS

Eliminate the drudgery of hauling hoses to water your lawn and landscape with an **Automatic Sprinkler System**. A custom designed and installed system increases the value of your property and the health of your landscape investment, while saving you both time and water. Call for complete details on our professional design, installation and service programs.

# Give Yourself a Break This Summer

Why bother hauling hoses around and moving sprinklers when you don't have to? An underground irrigation system will give your lawn and landscape plantings the right amount of water at the right times...automatically. Just think how easy it will be to water your plants while you're away at work, on vacation, and even at night!

Call us today for a free consultation on irrigation system installation and service.
